POWER

GAME GIANTS

THE NINTENDO DIFFERENCE is star power. No other game console can boast such popular game franchises as **Mario™**, **Pokémon®**, **The Legend of Zelda**, **Star Fox** or **Metroid**. Nintendo has some of the most enduring and recognizable characters in the industry, and the game giants are starring in new, **exclusive** titles for the Nintendo GameCube (GCN) and Game Boy Advance (GBA). Other biggies, such as **Mickey Mouse** and his Disney pals, will be a huge presence on Nintendo consoles, while rising stars **Kirby** and **Hamtaro** will each have an animated TV series to support their games. Paired with Nintendo's giant leaps in technology—most notably the **connectivity** between GCN and GBA in such promising titles as **Animal Crossing**—the game giants will continue to tower over the competition. Big stars. Big innovation. Big fun. The Nintendo difference is gigantic.

SUPER MARIO SUNSHINE

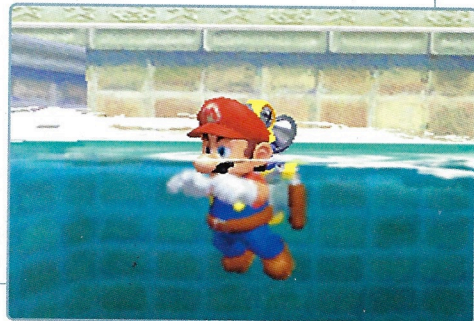

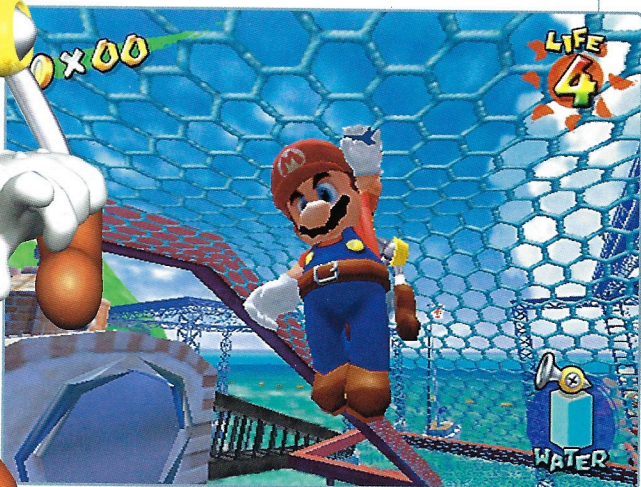

NINTENDO
GAMECUBE™

LIKE A RAY OF LIGHT

Mario is one of the most recognizable characters in video gaming, and he earned his popularity by starring in a streak of first-rate games. In his long-awaited debut adventure for GCN™, Mario will be giving gamers what they expect from him—colorful hop-and-bop action set in sprawling 3-D worlds that have surprises around every corner. In his latest outing, Mario visits a tropical island, where his vacation in the sun comes to an abrupt end thanks to a case of mistaken identity. An impostor has been vandalizing the isle, so Mario straps on a water pump to clean up the mess and clear his name. With the help of Mario's all-new hydro-powered weapon, players will hose down enemies, interact with the locals and meet up with old friends (including Princess Peach, Toad and Yoshi) in a new adventure that's sure to continue the high standard of Mario video games.

METROID PRIME

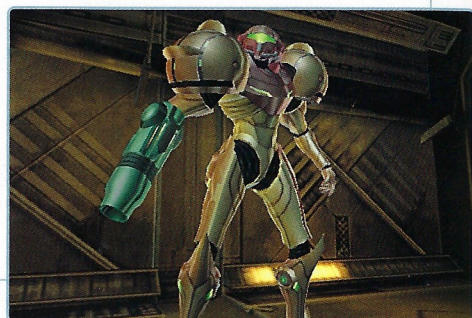

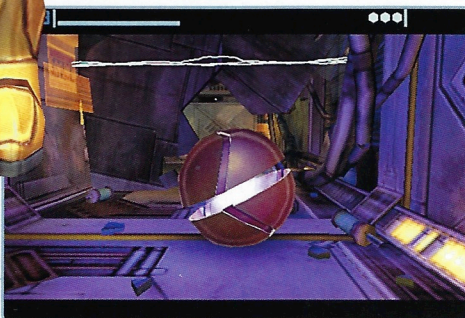

NINTENDO
GAMECUBE™

BRINGING OUT THE BIG GUNS

Take aim at adventure gaming and sci-fi shoot-'em-up thrills as bounty hunter Samus Aran rockets her way to Nintendo GameCube and planet Tallon IV. The venerable Metroid series starring Samus exploded onto the scene in 1986, and two sequels later, fans still haven't gotten enough. Doing justice to the original, the developers at Retro Studios charge full-speed ahead with a brand-new ballistic adventure that comes heavily armed with high-caliber game play, including first-person adventuring as seen through Samus's combat, scan and other high-tech visors. Loaded with classic weapons from the previous Metroid games and an arsenal of all-new weapons, Metroid Prime is an adrenaline-charged alien-blasting adventure that's worth setting your sights on.

STAR FOX ADVENTURES

NINTENDO
GAMECUBE™

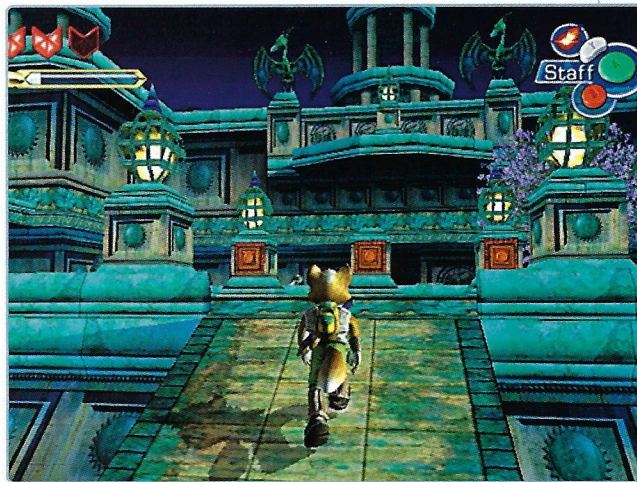

JURASSIC JOURNEYS

After piloting the Arwing starfighter in the first two stellar Star Fox games, Fox McCloud touches down on Dinosaur Planet™ for his first adventure outside the cockpit. Many missions still involve the aerial Arwing combat and dogfighting that the sly Star Fox series is known for, but the game pumps up the variety by allowing you to explore on foot and use magical attacks. Armed with an enchanted staff, Fox will be able to battle against the mutated dinosaurs led by local tyrant General Scales. But not all of the planet's dinosaurs are enemies, and Fox will team up with the prehistoric Prince Tricky. As Fox jets across the skies or traverses the vast planet on foot or on the back of a dinosaur, his showdowns with the planet's enemies will offer the sort of action-packed experience that gamers will go crazy over.

THE LEGEND OF ZELDA

Nintendo®

NINTENDO
GAMECUBE™

A LEGEND IS REBORN

Since the debut of The Legend of Zelda in 1987, all of Link's games have been the stuff of legends—universally appealing adventures that emerged as beloved triumphs of game play, presentation, innovation, graphics and fun. In the ninth entry in the series, Link debuts on GCN with a fun new look, but the game is still serious about adventure. The series' classic mix of sword-swinging action, perplexing puzzles and stirring story lines remains intact while the new cel-shaded graphics enable the characters of Link's world to be the most lively and expressive personalities gamers have ever seen.

Emotions hit a fever pitch when Link witnesses his sister being snatched up by a giant bird.

Embarking on an epic voyage to locate his sister, Link unravels a mystery that deftly blends unique, stylized graphics and effects with the much-heralded mechanics of the gaming milestone, The Legend of Zelda: Ocarina of Time®.

NINTENDO'S OTHER GCN GIANTS

NINTENDO
GAMECUBE™

LIVING LARGE with big stars like Mario and Zelda, Nintendo will also be standing tall with other GCN giants—including a new souped-up installment of the supersonic racing game, **F-Zero®**, and **Disney's Magical Mirror Starring Mickey Mouse**, which marks Mickey's GCN debut with an adventure set in an alternate world on the other side of a mirror (right).

1080°: WHITE STORM The follow-up to the cool-as-ice shredder promises to be king of the mountain with an all-new trick system and combo-crazy stunts that you can bust out on the slopes, in the halfpipes or while soaring across the sky. The original 1080° pioneered the 3-D snowboarding genre, and the sequel is tricked-out to deliver even more powder-pounding fun to the extreme.

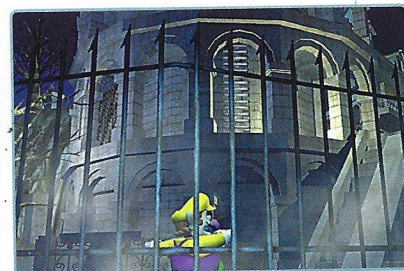

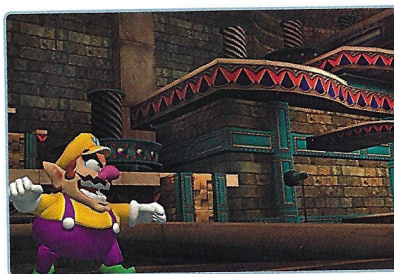

ETERNAL DARKNESS: SANITY'S REQUIEM™ Rearing its ghastly head on GCN, Eternal Darkness: Sanity's Requiem delivers a spine-tingling adventure intended for mature audiences and brave souls. The horror epic spans generations, and players must relive the blood-soaked history, conjuring spells, solving puzzles and slaying supernatural beasts. Whether you're creeping around as the Roman Centurion, Cambodian villager or any of the other characters, the psychological thriller will challenge you since the game isn't all blood and guts—it's got brains, too.

MARIO PARTY 4 The Mario Party games popularized the trend of board game bonanzas stocked with an assortment of varied activities. Each shindig was like having dozens of games in one, and Mario Party 4 is the wildest multiplayer get-together Nintendo has ever thrown. Mario, Luigi, Yoshi and an all-star cast of Mushroom Kingdom regulars have been invited, and there's never a dull moment as one to four players compete in 50 all-new minigames. With varied styles of play, including racing, target shooting and games of chance, Mario Party 4 gives partygoers more reasons—and ways—to celebrate.

WARIO WORLD™ He's the good, the bad and the ugly all rolled into one. Mario's archenemy, Wario, has previously starred in a string of hit Game Boy games—most recently, Wario Land 4 for GBA—and the gold-grubbin' villain finally gets to be the hero in his first 3-D console adventure.

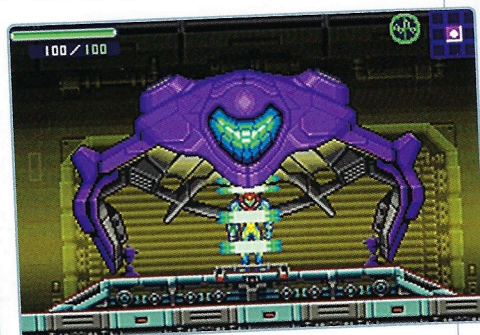

GAME BOY ADVANCE

GAME BOY ADVANCE.

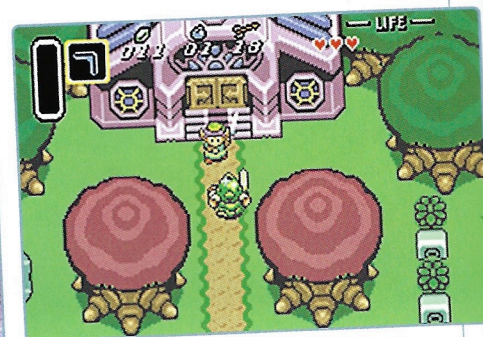

POCKET-SIZED GIANTS are coming to Game Boy Advance—the tiny portable with a library that's huge with fans of all genres. Vintage video games including **The Legend of Zelda GBA**, **Yoshi's Island: Super Mario Advance 3**, **Disney's Magical Quest Starring Mickey and Minnie** and a collection of **Game & Watch** favorites have been revamped for GBA, while all-new sequels for **Metroid** and **Golden Sun** are sure to shine, too. Television stars will also be shining bright, and you'll be able to see footage of new **Pokémon** and **Kirby** cartoons, as well as their new GBA games. For more info on the animated heroes, check out page 18.

METROID® FUSION From the team behind the original Metroid games, Metroid Fusion offers classic game play upgraded with new weapons. Metroid Fusion also introduces the X species, which Samus is able to battle after she takes the Metroid vaccine.

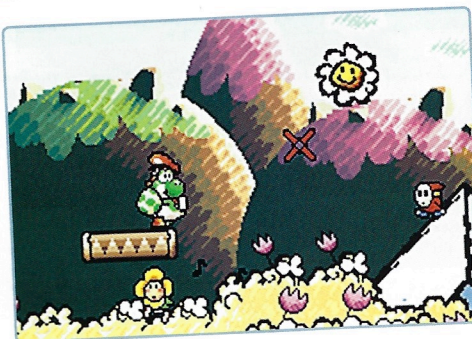

THE LEGEND OF ZELDA GBA®

Based on A Link to the Past on the Super NES, The Legend of Zelda GBA spruces up the 1992 fan-favorite by introducing the first ever multiplayer mode for a Zelda game. Two to four players compete as well as cooperate.

YOSHI'S ISLAND™: SUPER MARIO® ADVANCE 3

The follow-up to Super Mario World for the Super NES pampered gamers with the first adventure to star Baby Mario. Translating the classic's variety of action and painterly backdrops onto the GBA, the game is one fun baby worth going ga-ga over.

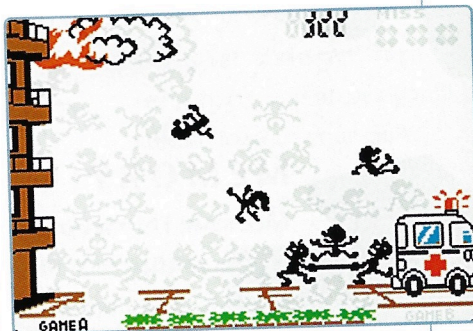

GOLDEN SUN™: THE LOST AGE

Though the first Golden Sun game was released only six months ago, the elegant adventure has already been embraced by role-playing fans as a classic. The epic sequel promises to be as good as gold, too.

GAME & WATCH GALLERY 4™

Before Game Boy, there were the Game & Watch LCD games, and old-school fans are still clamoring for more after the first three G&W collections came out. In G&WG4, players will be able to reacquire themselves with Donkey Kong Junior and other golden oldies.

DISNEY'S MAGICAL QUEST STARRING MICKEY & MINNIE

In a revamped version of the classic side-scroller for the Super NES, Mickey or Minnie searches for Pluto in a top-notch adventure that includes a new Game Link multiplayer feature.

CUSTOM ROBO GX With various mix-and-match robot power-ups, you can build a personalized mech that's ready for combat in Custom Robo GX. In multiplayer mode, you can pit your creation against a friend's robot in real-time battles to determine who's made of steel and who's just a bucket of bolts.

KURURIN PARADISE Test your precision and reflexes in a twitchy, puzzle-flavored challenge. Using a floating stick that spins like a propellor, players must carefully navigate a snaking maze without touching the sidewalls. It's a sticky situation, and up to four players can compete.

HARDWARE & CONNECTIVITY

WAVEBIRD™

Play just about anywhere in the room without interference. The WaveBird wireless controller works on radio frequency, so you won't have to worry about being directly in line with an infrared port. Gamers can play up to 20 feet away from their Nintendo GameCube, and the WaveBird's signal even works through walls. It's gaming unleashed!

MEMORY CARD 251

Nice save! The new pumped-up GCN Memory Card 251 will give you more than four times the saving capacity of the previous GCN Memory Card.

THE GCN-TO-GCN CONNECTION By saving a game file to your GCN Memory Card, you'll be able to load your data onto a friend's GCN. In the upcoming **Animal Crossing** for GCN, gamers will be able to load their personalized character from the Memory Card onto a friend's Animal Crossing game and visit their pal's unique village. The Memory Card innovation promises to make games even more interactive.

ANIMAL CROSSING

NINTENDO
GAMECUBE™

INHABIT A LIVING WORLD

Cross over to a world that thrives 24-7 on GCN. The ambitious Animal Crossing, allows players to interact with a virtual village of animals who are doing something different every minute of every day. With Animal Crossing's 24-hour clock, the game's unique events can be in synch with real time—as day turns to night in the real world, the sun will also begin to set in the game. Seasons will change and special events will occur in real time, too. The dynamic setup will have players coming back every day to carry out their daily routines, build relationships with villagers, celebrate holidays, collect furnishings for their homes and just live life in an innovative experience that's a world of its own.

e-READER

When plugged into the Game Boy Advance, the e-Reader will be able to scan data from special trading cards and load the info to your GBA.

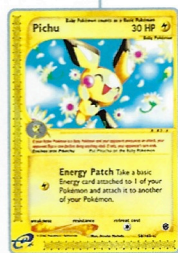

THE GBA-TO-GCN CONNECTION

The Nintendo GameCube is the only gaming console that connects with a handheld to give you extra gaming fun. GCN games such as **Animal Crossing**, **Disney's Magical Mirror Starring Mickey Mouse** and EA's **Harry Potter and the Chamber of Secrets** will boast special features that you can access only when you've linked the GBA to the GCN using the Nintendo GameCube Game Boy Advance Cable.

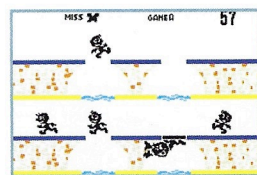

ANIMAL CROSSING CONNECTIVITY WITH GBA

When you're playing Animal Crossing and link your GCN to the GBA, you'll be able to sail to a special island that appears only when you connect the two systems. Once you've finished scouring the island, you can sail back to the GCN game with all the unique goodies you've found on your voyage.

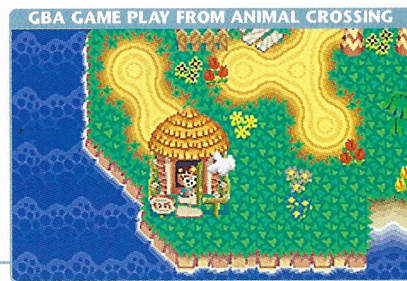

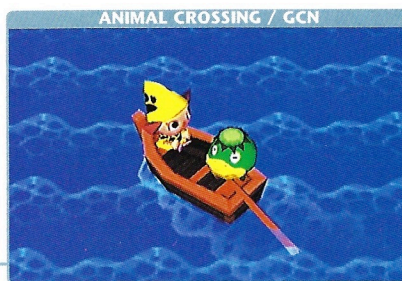

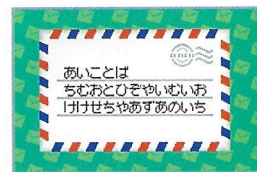

POKÉMON-e The various series of Pokémon-e cards will feature the popular characters and data such as Pokémon stats, theme music and minigames starring Pichu, Machop, Ponyta and others.

GAME & WATCH-e By scanning the Game & Watch-e cards, you'll be able to play an entire Game & Watch game on your GBA. Fun and frantic games, including Manhole, will be available when the first series of Game & Watch-e cards launches.

ANIMAL CROSSING-e The menagerie of Animal Crossing critters will be starring in their own set of e-Reader cards. By scanning the cards, you can reveal special data that tie into Animal Crossing for GCN.

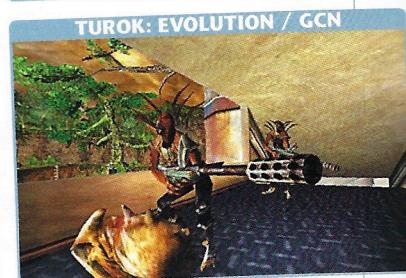

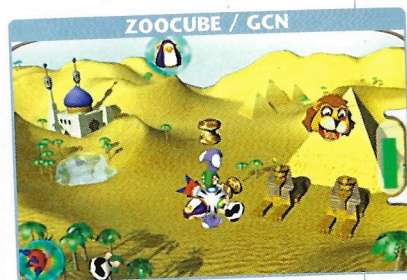

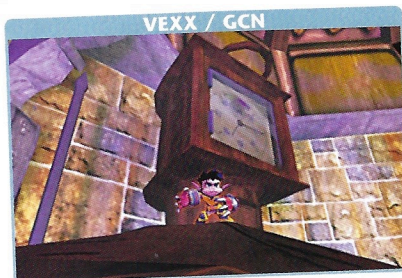

THIRD-PARTY POWER

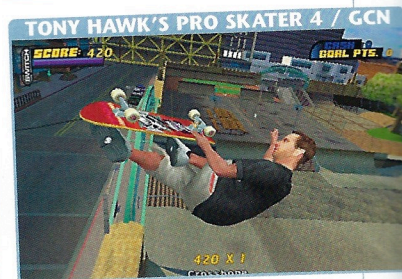

NINTENDO'S LICENSEES are big on Nintendo and they're even bigger on bringing some game giants of their own to GCN and GBA. With a massive lineup of over 100 announced Nintendo GameCube games and dozens upon dozens of Game Boy Advance titles, third-party publishers are coming out in full force and in full support of Nintendo. The following are merely highlights of some of the licensees' games to be touted at the show. For a more comprehensive guide to Nintendo's licensees and their upcoming library games, consult the list on the back cover.

ACCLAIM ENTERTAINMENT *Turok* made his video game debut on the Nintendo 64, and the dinosaur hunter returns for a fifth time in a bronto-sized adventure loaded for bear with first-person shooting and pteranodon gliding. Among other games, Acclaim will be unveiling its 18-level epic, *Vexx*, and the **Nintendo-exclusive** 3-D puzzler, *ZooCube*.

POKÉMON The catch-'em-all craze continues with Pokémon's debut on **Game Boy Advance**, which is slated for fall in Japan and winter in North America. Two new Trainers—one male and one female—represent you on the new adventure set in an all-new water world populated by dozens of new Pokémon (eight characters have been revealed thus far) as well as some of the original cast of characters. On TV, the **Kids' WB!** will kick off Pokémon's fifth season, "**Master Quest**," this fall. In October, **Miramax** will distribute the new theatrical film, **Pokémon 4—Celebi: A Timeless Encounter** to major U.S. markets, and the fifth movie installment will debut in Japan in July.

KIRBY Think pink. The well-rounded hero has appeared in over a dozen Nintendo titles over the past 10 years, and the big ball of fun is still on a roll. Nintendo will release a **Game Boy Advance** action/adventure game this fall, and several more Kirby games are already under development. Kirby will also star in a new animated television series, "**Kirby: Right Back at Ya!**" which premieres **September 14** on the Fox network's new **FoxBox** Saturday morning kids' lineup. Check out Kirby's video footage at the show to preview the pink pop star in action.

HAMTARO Little hamster Hamtaro is already a giant success in Japan, where Hamtaro products generated approximately \$2 billion in retail sales last year. Hamtaro and his Ham-Ham clubhouse gang will scurry into their own **Cartoon Network** series, "**Hamtaro: Little Hamsters, Big Adventures!**" beginning **June 3**, followed by a **Game Boy Color** game on **October 28** and a **Game Boy Advance** game in early 2003.
